PERFORMANCE, QUALITY AND VALUE

REAL-WORLD PERFORMANCE

Nightstick lights are designed to perform under the most stressful conditions where superior lumens, candela, beam distance, and run-time matter when life depends on light. We build Nightstick's law enforcement product line-up with the most powerful and efficient LEDs, durable engineered polymer or machined aluminum housings, precision engineered reflectors, and reliable, robust switches.

Many of our handheld law enforcement lights feature our innovative Dual-Light technology, allowing simultaneous use of both flashlight and downward floodlight for maximum safety and visibility when needed the most. We've integrated innovative electronic circuit design and programming like optional strobe and battery safe mode with the latest generation battery technology for flexibility and peace of mind while on duty.

UNWAVERING COMMITMENT TO QUALITY

Designed and engineered in Texas, we manufacture our products in dedicated ISO 9001 certified factories. Each model undergoes rigorous quality control inspections by independent 3rd party inspectors at multiple points during the manufacturing process. Additional quality control inspections occur as products arrive and leave our distribution facility. This commitment to excellence continues throughout the Customer Service experience with a goal of 100% customer satisfaction, backed by our Limited Lifetime Warranty.
